

Dear Participants,

Thank you for considering to attend the ISEA 2020.

Considering the situation due to the coronavirus problem, we are temporarily closing the registration site.

It is because we would not like to collect the registration fee although the present situation is uncertain and changing rapidly every day.

At present, there is a possibility to postpone the deadline of Early Bird fee and presenting authors' registration on 15 April.

However, basically we will keep the preparation as scheduled.

On the other hand, we will keep our eye on the situation.

We will make a further announcement on 18 March. So please wait for the further announcement on 18 March.

If the situation becomes better, we will open the registration site again and get back to normal.

We greatly appreciate your understanding and patience.

Best regards,

Motomu Nakashima, ISEA 2020 Chair
